124 La Trobe Street Melbourne

RSVP

laopdr-basic-edu.eventbrite.com.au

Refreshments will be served

The Government of Lao PDR and Australia, with support from the European Union, have implemented the Basic Education Quality and Access (BEQUAL) program in Lao PDR since 2015. This program, running until 2019, aims to provide better quality education for 450,000 children, particularly for children living in remote areas, contributing to achieving SDG4. This seminar will discuss the results that have been made so far as well as challenges present which this program needs to take into consideration in order to achieve its goals. The seminar will further provide suggestions to provide better quality education to Lao children in a sustainable way.

The EU Centre at RMIT is delighted to announce that this seminar marks the launch of formal activities of its Jean Monnet Network on the EU's Role in the Implementation of the Sustainable Development Goals in Asia Pacific. This is supported by a grant from the EU's Jean Monnet program for the period 2018-2020.
