PhD Prof. Laurențiu Șoitu, „Alexandru Ioan Cuza” University of Iasi, Lifelong Learning Institute, Romania

Laurentiu Șoitu, Conference President, has created university and community programs to develop adult education both as an academic discipline and a practical offering to the public in need. For the first time in the Romanian Higher Education System, Șoitu introduced pioneering courses in adult education for license and master's degree levels at the University of Iasi. He was also one of the initiators of the Management of Adult Education program, a Europe-wide master's program. Șoitu organized research oriented to rural education institutions in Romania, referring to experiences from the inter-war period, but also to the new learning contexts within the extended Europe. To extend the services of his university to the public, including persons with special needs, inmates, the elderly and other marginalized people, Șoitu helped create the Adults' Education Regional Centre,

funded though the Worldwide Bank. Șoitu has developed manuals of good practices for diversity education actions. He also initiated in partnership with Danish foundation, a centre with specialized services for older people open to public interaction with centre residents. One of his greatest contributions is his work with Iasi's International Conferences of Adult Education, held every four years, gathering participants from Europe, Asia, the U.S. and many other countries. Durable learning partnerships and mutual relationships have been formed from these gatherings, including professor and student exchanges.
